TOUR OF SOUTH FLORIDA

The idea of creating the Tour of South Florida originated in the month of February of the year 2019. We thought of calling some friends by phone, and thus to obtain opinions about the project in mind; the first person to contact told me "Excellent idea, I'll call you back in 5 minutes". And He did it, he told me: call Corrackec, they are waiting for your call. After explaining the project, and without hesitation, the answer was a total yes. Now we found ourselves with the paradox of looking for 3 consecutive days, with a holiday included, but also the need of enough time to do the planning, and accommodate it to the Florida State racing calendar, already advanced for that season. Because of this, the best date was decided for "Memorial Day" weekend.

Under those circumstances we started with a team time trial, a road race stage and a criterium. As the years have passed, its format has changed, as have the race locations. The last schedule that we used was a prologue, two flat criteriums and the closure in the cycling mecca of South Florida, which has been used as a finale in the last 3 versions, we are talking about Vista View with its two climbs. Covid 19 has played a big role in the selection of the race venues.

La idea de la creación del Tour of South Florida, se origino en el mes de febrero del año 2019. Pensamos en llamar telefónicamente algunos amigos, y así obtener opiniones acerca del proyecto en mente; el primero en comunicarme me dijo "excelente idea, lo llamo en 5 minutos". Efectivamente lo hizo y me dijo: llame a Corrackec, están esperando su llamada. Después de exponer el proyecto, y sin titubeos, la respuesta fue un total sí. Ahora nos encontrábamos con la paradoja de buscar 3 días consecutivos, con un festivo incluido, pero también con el tiempo suficiente a hacer la planeación, y acomodarlo al calendario del estado de la Florida de carreras, ya avanzado para dicha temporada. Debido a esto la mejor fecha ha decidirse fue el fin de semana de "Memorial Day"

De esta forma arrancamos con una crono por equipos, una etapa en línea y un circuito. A medida que los años han pasado, su formato ha cambiado, como también los sitios de carrera. El ultimo esquema que se utilizó, fue un prólogo, dos circuitos planos y el cierre en la meca del ciclismo del Sur de la Florida, el cual se ha utilizado como cierre en las últimas 3 versiones, estamos hablando de Vista View con sus dos ascensos. Covid 19 ha jugado un papel importante en la selección de los lugares de carrera.
